

# Evidencing the impact of the Primary PE and sport premium

Website Reporting Tool

Revised May 2021

Commissioned by the  
Department for Education

Created by

It is important that your grant is used effectively and based on school need. The [Education Inspection Framework](#) (Ofsted 2019 p64) makes clear there will be a focus on ‘**whether leaders and those responsible for governors all understand their respective roles and perform these in a way that enhances the effectiveness of the school**’.

Under the [Quality of Education criteria](#) (p41) inspectors consider the extent to which schools can articulate their curriculum (INTENT), construct their curriculum (IMPLEMENTATION) and demonstrate the outcomes which result (IMPACT).

To assist schools with common transferable language this template has been developed to utilise the same three headings which should make your plans easily transferable between working documents.

Schools must use the funding to make **additional and sustainable** improvements to the quality of Physical Education, School Sport and Physical Activity (PESSPA) they offer. This means that you should use the Primary PE and sport premium to:

- Develop or add to the PESSPA activities that your school already offer
- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years
- The Primary PE and sport premium should not be used to fund capital spend projects; the school’s budget should fund these.

Please visit [gov.uk](https://www.gov.uk) for the revised DfE guidance including the 5 key indicators across which schools should demonstrate an improvement. This document will help you to review your provision and to report your spend. DfE encourages schools to use this template as an effective way of meeting the reporting requirements of the Primary PE and sport premium.

We recommend you start by reflecting on the impact of current provision and reviewing the previous spend.

Schools are required to [publish details](#) of how they spend this funding, including any under-spend from 2019/2020, as well as on the impact it has on pupils’ PE and sport participation and attainment by the end of the summer term or by **31<sup>st</sup> July 2025** at the latest.

We recommend regularly updating the table and publishing it on your website throughout the year. This evidences your ongoing self-evaluation of how you are using the funding to secure maximum, sustainable impact. Final copy must be posted on your website by the end of the academic year and no later than the 31st July 2021. To see an example of how to complete the table please click [HERE](#).

Support for review and reflection - considering the 5 key indicators from DfE, what development needs are a priority for your setting and your pupils now and why? Use the space below to reflect on previous spend and key achievements and areas for development.

Please note: Although there has been considerable disruption in 2020 it is important that you publish details on your website of how you spend the funding - this is a legal requirement.

N.B. In this section you should refer to any adjustments you might have made due to Covid-19 and how these will influence further improvement.

Key achievements to date until July 2024:	Areas for further improvement and baseline evidence of need:
<ul style="list-style-type: none"> <li>Active playtimes and provision for children to be active through play and in free choice time. The young person's motivation, competence and confidence are at the centre of the competition.</p>	<p><b>Example actions to achieve the intent:</b></p> <p>To develop an inclusive competition framework which offers a wide range of competitive opportunities through extra curricular activities that enable pupils to compete at a personal level (personal best), intra and inter level.</p> <p>Competitive sport fixtures are played at all levels to cater for the different needs of children, providing safe, challenging and healthy competitions</p> <p>To understand more about what makes a positive experience of competition for young people.</p> <p>Develop a process for:</p> <p>1. Selection: Thinking about who in school needs the benefits of competition the most to support</p>	£800	<p>Inter school competitions, reaching finals in two. Runners up in cross country area final and winning the striking games area final.</p> <p>6 intra sports competitions in different sports. 1 masterclass session in a sport that was new to the children.</p> <p>All children competed in all intra competitions in KS2 and KS1 masterclasses.</p> <p>Children felt more motivated and confident wearing their new competition kits.</p>	Continue to invest in the competition framework next year.

<p>2. The focus is on the process rather than the outcome (on the learning and values development of the young person rather than the result).</p> <p>3. Volunteers, leaders and officials are appropriately trained and display behaviours reflective of the nature of the competition.</p> <p>4. The environment is safe and creates opportunities to learn and maximise social development.</p> <p>5. The facility and the environment that is created for the competition reflects the motivations, competence and confidence of the young people and format of the competition.</p> <p>We also consider that competition can take place in a variety of settings and environments such as:</p> <p>Personal Best – competition against oneself</p> <p>Intra – competition taking place within school</p> <p>Inter – competition with other schools</p> <p>County – competition with others across the county</p>	<p>their personal development? How will we then attract and invite the young people that need it most to train and compete? How will you provide young people, parents and other school staff with clear and effective communication that helps them to understand why young people have been chosen?</p> <p>2. Preparation: Preparing young people to be competition ready – a competition is much more than an isolated event. Ensuring time is spent building confidence and knowledge as well as developing physical competence.</p> <p>3. Supporting a positive experience: Through creating a supportive environment that focuses on the process as opposed to final standings or who lifts the trophy.</p> <p>To provide an opportunity for ALL pupils to have represented the school</p> <p>To develop a system to monitor participation.</p> <p>To introduce a house system to ensure all pupils have the chance to participate in a competition.</p>		<p>Sports leaders communicate between children and school so all children have a say in what competitions the school is involved in.</p> <p>Careful planning of competitions with PE lesson planning, after school clubs and masterclass's in school.</p> <p>Awards for determination, resilience, effort, respect and teamwork have worked to make sure the focus is not always on winning but the taking part and how you play measured against yourself not against other people.</p> <p>All children represented the school in at least 1 event.</p> <p>Log sheets and spreadsheets record participation.</p> <p>Swaledale, Nidderdale and Wensleydale</p>	<p>Elect new sports leaders in Y6</p> <p>Timetable future competitions both intra and inter.</p> <p>Develop certificates in school to give out in PE lessons for the same values as a re given in the competitions.</p>
